

HEALTHY HOMES & GARDENS

SOIL SAMPLE ANALYSIS

5 SAMPLES FOR \$132

We offer a quick non-destructive method for testing soil from around your garden.

Take soil samples from your areas such as:

- Close to your home
- In vegetable patch
- Where children are likely to play

Take a sample by:

1. Take a trowel full of soil from the top 2cms of soil in the area that you are sampling.
2. Remove any grass or vegetation before sampling
3. Put the sample in a Ziplock bag and seal the bag

Ensure samples are labelled with:

- Description of location (e.g. Veggie patch 1)
- Date sample was taken
- Name and address of house

Drop your samples off to us!
